

Tailoring Platform — V1 Business Rules

Customer Rules

1. Customer must create account before placing order.
 2. Customer must select at least one stitching item.
 3. Customer must upload cloth image before order submission.
 4. Customer must choose measurement method.
 5. Customer must choose pickup slot.
 6. Customer can request urgent order while placing order.
 7. Customer cannot cancel once stitching starts.
 8. Customer may request one free alteration within 48 hours.
 9. Customer cannot request free alteration after changing design preference.
 10. Customer must choose delivery slot before final delivery.
 11. Customer pays extra delivery cost after second failed delivery.
-

Tailor Rules

1. Tailor account must be approved by admin.
2. Tailor must define service prices.
3. Tailor must define estimated work hours for each service.
4. Tailor must define urgency surcharge settings.
5. Tailor may update prices anytime.
6. Tailor must respond to order request within 12 hours.
7. Tailor must provide rejection reason.
8. Tailor can override workload warnings.
9. Tailor must update order status manually.

10. Tailor may reject urgent orders.
-

Order Rules

1. One order group may contain multiple clothing items.
 2. Each clothing item stores separate status.
 3. Shared pickup fee applies per order group.
 4. Separate item delivery incurs separate delivery charge.
 5. Order becomes non-cancellable once stitching starts.
-

Pickup Rules

1. Pickup occurs only in selected time slot.
 2. Actual cloth must be verified physically during pickup.
 3. Actual received items must be photographed.
 4. Pickup receipt must be stored.
 5. Platform may reject mismatched cloth at verification.
-

Pricing Rules

1. Stitching prices are independent of delivery distance.
 2. Pickup/delivery fee is zone based.
 3. Tailor controls service pricing.
 4. Tailor controls urgency pricing globally.
 5. Per-order manual urgent pricing is prohibited.
 6. Seasonal pricing changes are allowed.
-

Workload Rules

1. Tailor defines weekly capacity.

2. Every service has estimated work hours.
 3. System calculates total workload automatically.
 4. System only warns about overload.
 5. System never blocks order automatically.
 6. Urgent order workload uses same capacity pool.
 7. System checks deadline conflict before urgent order acceptance.
-

Alteration Rules

1. One free alteration allowed.
 2. Alteration allowed only within 48 hours.
 3. Free alteration only for stitching defect or mismatch.
 4. Customer preference change invalidates free alteration.
 5. Platform bears alteration logistics cost.
-

Delivery Rules

1. Delivery slot selection mandatory.
 2. Customer may reschedule failed delivery once.
 3. Second failed delivery requires extra fee.
 4. Delivery to third person allowed only with explicit customer authorization.
-

Admin Rules

1. Admin approves tailor activation.
2. Admin may suspend tailors.
3. Admin can monitor all orders.
4. Admin controls operational tailors during V1.
